

## Landscape Design & Installation Service

After we collect your contact information we will briefly discuss landscaping needs. You will then be contacted to make an appointment for a consultation at your home. Generally you will be contacted within a few days and your appointment will be scheduled within a week or so.

At the consultation at your home, we will ask questions and generate ideas to gain a clearer vision of what you are looking to do. We will take pictures, measurements, and discuss your budget. You will be informed on when the estimate will be completed and when you can expect to be contacted to go over your estimate & design. The scale of your project will determine the detail of the estimate & design.

We will then meet with you to discuss the design and estimate at our store.

Once you have accepted our design and estimate, we can begin discussing the installation process and timeline.
